

Tanasak Wahawisan

Tanasak Wahawisan is a Thai executive, educator, and social visionary whose life and leadership are rooted in moral clarity, intergenerational compassion, and a steadfast belief in the dignity of every human being.

With over four decades of experience spanning economics, academia, and executive leadership, Dr. Tanasak has consistently applied ethical values not only in decision-making, but in his daily actions. At the heart of his mission lies a vow to honor the legacy of his late father—a humble man devoted to service and integrity. That vow became the foundation for his life's work: to bridge inequalities, especially in education and opportunity, through actions that combine strategic intelligence with heartfelt compassion.

As the founder of the Watiwisan Foundation, Dr. Tanasak leads national efforts to reduce educational inequality. The foundation provides scholarships, mentorship, and holistic support to underprivileged youth, ensuring that every child—regardless of background—has the chance to dream, express, and rise.

He is also the creator of Journey of Dreams, a groundbreaking television program that gives children across Thailand a public platform to share their talents and be awarded academic scholarships. The program embodies the ethics of visibility, inclusion, and social upliftment.

In alignment with his moral commitment to the planet, Dr. Tanasak funded and co-led the deployment of over 100 reef balls in Thailand's Sattahip Bay—reviving coral ecosystems through partnership with leading universities and in honor of Her Royal Highness Princess Maha Chakri Sirindhorn's conservation initiative.

Through every project—be it in education, sustainability, or social innovation—Dr. Tanasak leads by example. He believes that moral leadership is not a title but a practice: a lifelong devotion to justice, humility, and the empowerment of others.

His impact transcends sectors and speaks a universal truth:

One act of integrity can echo across generations.
